

Alpha Phi Omega's

TORCH AND TREFOIL

Mrs. Harrison, mother of David Harrison, past president of Alpha Mu Chapter at William Jewell College, speaks forcefully about the values which Scouting and Alpha Phi Omega have brought to her sons. The Editors are honored to present this article on the eve of Mother's Day.

climaxing the whole, each boy was privileged to go to the summer camp at Osceola. They came home with a new concept of life. Thousands of other city bred boys came home from their camps with a new conception of God and nature.

One son said after his first camping experience, "Mother, I never knew there were so many stars. It seemed we would pick them right out of the sky." The younger son said, "We were so close to God."

Never have I seen such pride as they took in their father when he was appointed chairman of the Scout Troop. The critical time came with the war years, the eldest son, with Patton's third army marched across France, Germany, and Austria fulfilling that oft repeated pledge—"On my honor I will do my duty to God and my Country."

How thankful I am for this son that he had those years of training in Scouting with his country's flag ever before him—with that oath so a part of him that it was part of his blood and marrow. The other son carried on in college during the war years but the torch of Scouting ranked higher than at any time in his life for in college he renewed his pledge as president of Alpha Phi Omega. They were lean, hard years for the boys left in school, valiantly these few boys carried on with the ideals of Alpha Phi Omega—Leadership, Friendship, and Service.

Someone has said—"If you would have your son be something in the world, teach him to depend on himself. Let him learn that it is by close and strenuous personal application he must rise—that he must, in short, make himself, and, be the architect of his own fortune."

As a mother it would be hard to visualize the education and training of sons without the aid of Scouting, for with it every ideal we have striven for in our home—truth, honor, patriotism, and religion—was raised to the highest pinnacle.

(Continued on Page Six)

VOLUME 21 – NUMBER 4
APRIL, 1946

**APPOINTED ASSISTANT DEAN
OF MEN AT TEXAS**

Charles T. Clark

Back from Tokyo, Chuck was appointed Assistant Dean of Men and Director of Student Employment at the University of Texas, his duties starting March 1. The magnitude of his task can be seen in the fact that the veteran population on the campus is estimated at more than 4,000 this semester, and nearly 50 per cent of the veterans are married. Competition for work at or near the university therefore is no small matter, especially when it is remembered that there are also unmarried coeds vying for the part-time positions.

In his undergraduate years, Brother Clark was active in Alpha Phi Omega and his leadership was a great factor in building Alpha Rho Chapter to its place of prominence and usefulness on the campus. Everyone in Alpha Phi Omega welcomes his return to the campus in his new administrative capacity. Best wishes, Chuck!

AN EPITAPH

I lived a long time. In the end I possessed only that which I gave away.

TORCH and TREFOIL

April, 1946

Issued regularly eight times a year in September, October, November, December, February, March, April and May.

Subscription price \$1.00 a year.

Entered as second class matter February 5, 1938, at the post office at Kansas City, Mo., under act of March 3, 1879. Office of Publication, 407 Land Bank Bldg., Kansas City, Missouri.

Announcing . . .

**The 1946
National Convention
of Alpha Phi Omega**

to be held in

Kansas City, Missouri

December 28 and 29, 1946

Further details will be published soon.

AN OPEN LETTER TO ALL MEMBERS FROM THE NATIONAL PRESIDENT

My dear Brothers:

The forthcoming national convention of Alpha Phi Omega, announced in this issue, will be an important milestone in the advancement of our brotherhood. At each past convention, the delegates have created new plans for the development of the fraternity and I believe our 1946 meeting will surpass all previous meetings.

In the six years since our 1940 convention in Indianapolis, the wartime program of APO has further proved the stability and usefulness of our organization. Those years have brought a challenge, and we have not been found wanting. Those years have brought new projects and new methods in many chapters, all of which will be reported upon at the 1946 national convention. Those years have brought forth new ideas for the future growth of Alpha Phi Omega, all of which will be presented for the consideration of the delegates at this convention.

The responsibilities of hosts will be jointly handled by six chapters in and near Kansas City, including Alpha Eta, Gamma Xi, Alpha Mu, Iota, Beta Kappa, and Lambda Chapters. I am confident the committees appointed by these chapters to handle the convention details will conduct their jobs in fine style, providing for the comfort and enjoyment of all who attend.

The time is right for every chapter to begin planning ways and means of sending at least two official delegates to this convention. The national constitution provides that each chapter shall have two votes in all legislative matters. This gives your chapter a fine opportunity to voice your opinions in all discussions and help decide the matters which will guide the growth of APO in the years ahead. Plan now to have your chapter adequately represented in Kansas City, December 28 and 29, 1946!

Faithfully and fraternally yours,

National President

Why Veterans Are Interested in Alpha Phi Omega

By
John D. Evans

*Holder of the Purple Heart,
President of Xi Chapter, Iowa State College*

The veteran returning to college is coming back with a higher sense of values than perhaps he had before his service experience. Before the past war it was too often the case that students were attending college with the idea of having a good time and forgetting world responsibilities. The veteran has had to face these responsibilities of citizenship by defending his country.

He now returns with definite aims in life. He has come back to college realizing that his education is important for the fate of his nation and even the world is dependent upon him. Even more important, he sees the need of unselfish service, for in planning a future world of peace, we can find no place for a theory of "self-centeredism."

He has seen the failure of modern leadership, leading to a titanic struggle

in which many of his friends gave their lives. He doesn't want this to happen again in twenty years to his sons. He considers world organization his problem and doesn't care to trust its care to individuals lacking the leadership qualities necessary for its success.

So he turns to Alpha Phi Omega for the valuable leadership training which it offers, thus preparing himself for the responsibilities of leadership.

He remembers the happy days of his Scouting experience and wishes to affiliate himself in the comradeship of others who have shared in the joy of Scouting. Furthermore, he probably plans to continue in Scouting in some way and considers Alpha Phi Omega as an excellent chance to keep in contact with the ways of the Scout Oath and Law.

These are the reasons why the veteran is interested in Alpha Phi Omega.

I think that our brotherhood can look to the veterans returning to the campuses as a source of many good members who will advance the ideals of our fraternity.

This Is Peace!

By
Professor H. W. Davis

*Head, Department of English,
Kansas State College*

During War's alarms we fondly imagine that Peace is quiet, restful, and productive. In times of Peace we wish for the unity and the moral drive we can rely upon in War. If there were a substantial in-between time—with a name, we would wish for something it did not have. It is the lot of humankind to wish for what is not.

Today we clamorously want higher wages, higher education, nylons, automobiles, the miracle radios talked so much about during the war and all the sugar and spice supposedly plentiful in Peace.

What we do not realize is that we are weary of sacrificing our own immediate comfort for some end or purpose much more important than our own immediate comfort, as we did rather nobly between December 7, 1941, and not so long ago. We forget

that for almost four years we had a great moral persuader rolled up into a little sentence of three words—"This is War!" That sentence we tossed, caught, and tossed again thousands of times—so many times that we grew to hate it almost with fury.

Today the main trouble is that nobody has rolled up the new situation for us into a short, simple sentence. We like to think and prattle idealistically of Peace—like to confuse it with ease, piety, relaxation, nobility and a lot of other things that seem much easier of attainment than they really are. Even though we know better, we like to think that Peace is what we shall get if we merely "behave"—listlessly and lazily.

Perhaps we had better not try to be at all original, but just start saying, "This is Peace," with something of the same force with which we said, "This

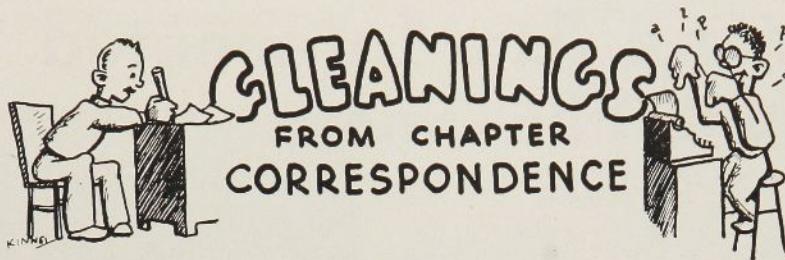

is War." Maybe by doing that, and by realizing to the fullest what the three little words denote and connote, we can build a Peace that will live long enough to stand on its own feet.

Of course we shall have to learn that Peace is not namby-pamby, that it calls for as much effort and sacrifice, maybe for as much blood and sweat and tears, as War does. If Peace is worth more, it will cost more; or Ralph Waldo Emerson was badly crossed up in his essay on Compensation.

Perhaps we shall have to "pay as we go" for Peace. That may be easier than paying up every twenty-five or thirty years.

"This is Peace, brother!"

Try that over on your voice-box until you can make it sound as ominous as "This is War!"

SOUTHERN METHODIST UNIVERSITY

Last fall we helped sponsor an all-school dance after one of our football games. We increased our sale of Christmas seals by about \$10 over the previous year, and the "Ugly Man" contest carried on for the benefit of the Infantile Paralysis Fund netted \$318, which is certainly an all-time high on this campus. One thing that we have done which has been a "must" on this campus for a long time, and that is the building of a public address system for use at all-school functions. It will also be used by the cheer leaders next year at football games. APO men are now ushering at all university chapels, and in addition to this we have several other projects in mind for the near future.

—Coit Butler, Treasurer.

SOUTHEAST MISSOURI STATE TEACHERS COLLEGE

Alpha Phi Omega will have charge of the election of the new freshman president, which will be held March 21. It was required that each nomination for the office be accompanied by a petition signed by at least twenty-five other freshman students. Ballots will be prepared by the office of the dean of women and voting will be directed by APO.

—Joe Brooks, President.

C. C. N. Y.

Besides our pledge smoker, Gamma Delta Chapter has completed several services since the beginning of the semester. We ushered at the convocation to welcome returning veterans and entertained freshmen. We also checked coats and acted as hosts during the Dean's Reception for Freshmen. We have also revived the practice of mailing the City College newspaper to all students in the military service. We have many more services and socials planned for the future.

—Al Bernstein, President.

CLEMSON COLLEGE

The returned members of Gamma Lambda Chapter recently elected thirteen men for membership. They include T. E. Boliver, J. A. Burley, J. W. Evans, H. F. Frierson, J. L. Gervais, J. W. Hawkings, F. B. Hutto, F. W. Ix, R. T. Mattison, S. D. Pennington, W. S. Reasonover, C. R. Smith, and A. C. Sutherland. These pledges will sponsor the annual "Booby King" contest which claims the ugliest man in the college by popular vote. Votes will be sold at a penny each and each organization has been asked to nominate a candidate.

—Jack Rheney, Secretary.

CCNY

Since our previous report, Gamma Epsilon Chapter has assisted the Hygiene Department in the medical examinations of entering freshmen and returning veterans. We conducted a survey for the Dean of Student Life to determine the extra-curricular interests of the entering freshmen, and at the same time conducted our own membership survey. Other projects have also been successfully carried out and our plans for the future include managing the Friday night dances and the lost and found booth, serving as managers for the intramurals teams, conducting the freshmen elections, managing a series of club exhibits and conducting an Ugly Man contest. We recently held our pre-pledge smoker which was a very successful affair.

—Don Peaceman, Secretary.

BROOKLYN COLLEGE

We recently held our first pledge ceremony for this semester and it appears we will conduct another within the next two weeks.

—Ed Cirlin, President.

NORTH TEXAS STATE

Plans for our 1946 Scout Visitation Day are now getting underway.

—Jess Hensarling, President.

SYRACUSE UNIVERSITY

Our annual banquet was a huge success.

—Bob Holcombe, Treasurer.

SAN JOSE STATE COLLEGE

Gamma Beta Chapter is again on its feet. Inactive during the war, our chapter is again active and has grown tremendously during the past three months. We have plans for service projects which serve the local Boy Scout council, the college, and the community. We also have a membership goal set for the new quarter beginning in April.

—Glen Eglington, Secretary.

SOUTHEAST MISSOURI STATE TEACHERS COLLEGE

On March 28, twenty prospective members attended an open meeting of Beta Psi Chapter of Alpha Phi Omega. The program included presentation of the various types of work done by the organization, general business, discussion of immediate activities, and refreshments.

—“The Capaha Arrow.”

TEXAS TECH

We have planned several projects for this semester. These projects were not sought after by a committee trying to find a project but rather they were requested of us by the college or members of the faculty. Of the numerous requests for our services we have selected three projects that we will do this semester.

One of the projects will be to back a "Get Out And Vote" campaign. Last year we had a similar project and we increased the voting percentage by thirty-six percent and this year we hope to be able to double this percentage. We have planned to have a rally at which the entire student body will be and at this rally we will have a forty minute dance and then we will have a short campaign speech from each candidate. This will enable each student to know the candidates and thus each will be able to vote for the person that he has known for a long time, but whose name he has not known. Also there will be an extensive campaign to get all of the organizations on the campus to have a 100 per cent average on the membership vote.

Another project will be to help the college handle the Inter-Scholastic Meet that will be held on 17 and 18 of April. There will be about 800 students from all over the West Texas area and the faculty has asked that Alpha Phi Omega help them to register these students and to show them to their homes where they will stay while here at Tech. This promises to be a real project and I feel that our chapter will be doing a real school project when this is done.

Still another project that was accepted was a project to help on the Lubbock County Crippled Children's Drive which will be held during the first weeks of April. The extent of our aid will be to fold and seal several thousands of envelopes that will have seals for this drive. Our pledges will do this and this will be the project for their pledge period. We selected this as a project because it stepped out into the community and finished out our project program. This is the work that we are planning, and I feel that it will be a real semester's work.

—Jim Wanner, President.

UNIVERSITY OF NORTH CAROLINA

With the aid of pledges, we have been in charge of concessions at the Friday night dances and have operated a recreation club on the campus.

—Frank B. Hatch, President.

CCNY

Gamma Delta Chapter is starting the new term with an ambitious program. We are assisting the Department of Student Life during registration week, serving as guides to show the freshmen around the school, and will usher at the opening convocation and at the Dean's Reception for freshmen. We are embarking upon the biggest membership drive we have had in years and we plan to double our active membership this semester.

—Elliott Adelman, Vice-President.

SAN JOSE STATE COLLEGE

I have arrived home on the 16 of January after a rather speedy trip. We left the middle of Germany on the 17 of December, went to LeHavre, Southampton and New York. The Army flew us across the States which was a nice trip except for the weather which held up our plane three different nights. Needless to say it is wonderful to be back.

Some of the fellows had already started to put Gamma Beta back on the campus at San Jose State. As you have probably heard already all of the fellows are new so far. There will be more this next quarter I think. The brothers who were here when the chapter was last active are gradually being discharged and coming back to school.

I've sent out letters to about fifty of older members with cards which are supposed to be returned to me. I hope to get some of them back on the active list, especially those who will be back to school.

We have a booth planned for registration day, April 1, where we will make a survey of the Scouts in school which should provide us with a list of prospective pledges. Our chapter officers are to be elected in about two weeks after which we will have a pledge class to build up the membership. In this way we should have a large carry over to the fall quarter.

The local Scout Council is having a field day on the 28th of April which some of the brothers will be helping on the judging.

—Ed Carman, Alumni Secretary.

MISSOURI SCHOOL OF MINES

We have done very well with our blotter program which has just ended and are making plans to reopen the Student Book Exchange. On March 24 our fall pledges were initiated and we have elected new officers for the current term. Rushing is progressing favorably.

—W. A. Schaeffer, III, Secretary.

SOUTHWEST MISSOURI STATE TEACHERS COLLEGE

Beta Mu Chapter has just completed a very successful project. From April 2 to 5 we operated our fingerprinting booth in the main hall of the Administration Building, completing the records of 115 students. We have decided to conduct this project during registration days each term, in this way accomplishing a fourfold purpose: To fingerprint new students as they enter school, to become acquainted with prospective members, to keep the fraternity and its objectives before the student body and faculty, and to operate with a full force without interruption from class attendance. Plans are underway for our annual spring formal, and our chapter is growing with the return of veteran members and the addition of new men.

—Bill Compton, Past President.

OHIO STATE UNIVERSITY

We at Ohio State are getting reorganized and have had three meetings with nearly 100 per cent attendance. New officers have been elected and we are making arrangements for an initiation for our new men soon.

—Edgar Andrews, Secretary-Treasurer.

UNIVERSITY OF IOWA

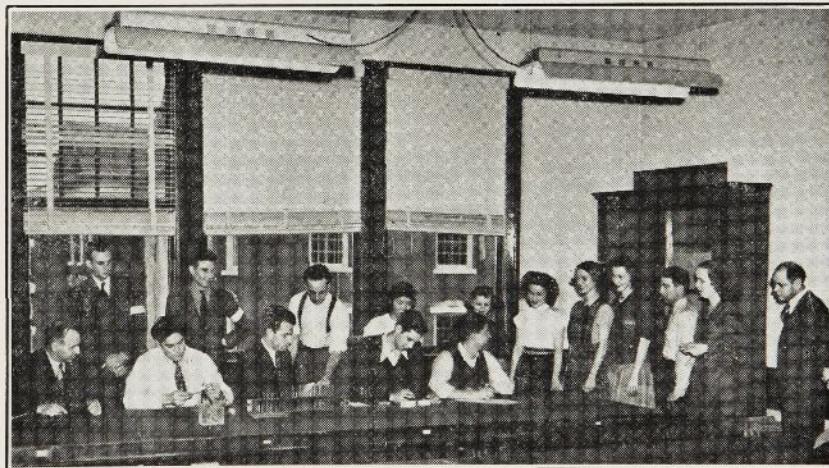

Omicron Chapter is really doing things this semester. We are planning a canoe trip on April 14 and our second annual Senior Scout Ball will be held April 27. Everything is arranged for the Ball to be held in the River Room of the Iowa Memorial Union and invitations have been sent to all leaders in this area. In addition to these projects, we are planning to revive the University guide service upon the request of the administration and the Student Council and we also have an old clothing drive set for May 4 and 5 and a traffic safety campaign in conjunction with the Rotary Club. Ten new men have been pledged as a result of a recent open meeting.

—Carrol F. Schneider, President.

UNIVERSITY OF ILLINOIS

Brother C. M. Finnell, of the National Executive Board, will be our guest and special speaker at our spring initiation ceremony May 19. We are planning rapid expansion and are contacting all Scout Executives in Illinois to have them recommend names of prospective new members. A poster concerning Alpha Phi Omega has been designed by one of our pledges for display in Scout offices throughout the state.

—Louis McCraight, Vice President.

BLOOD-TYPING CONDUCTED ANNUALLY BY ALPHA MU CHAPTER, WILLIAM JEWELL COLLEGE

This picture shows Alpha Mu Chapter's blood-typing work in progress, with six presidents among others participating. Left to right are: Dr. L. J. Gier, Senior Faculty Advisor; Bill Wallace (president 1940-41); Paul Jamison (president 1941-42); Jerry Jones (president 1945); Don Rusk (president this semester); Alex Walker, David Harrison (president 1944); Susie Nakagawa, Shirley Griffin, Armand Spizzirri (president 1942-43); Eunice Todd, Joanne Amick, Joyce Hughes, Ferrell Purdy, Geraldine Schoech and Lawrence Hull.

Brothers Wallace and Jones are wearing APO Information armbands. As the students come along the line they give their names to Brother Spizzirri who assigns them numbers. Brother Harrison makes out the identification cards. Brother Rusk sticks the finger and gets two drops of blood on a slide. Brother Jamison adds saline solution and dried serum which he then mixes and Dr. Gier reads the results. Ten or twelve per minute are handled by this system.

The chapter has typed the blood of over 1,000 persons and last year answered more than 70 calls for blood donors.

SOUTHEAST MISSOURI STATE TEACHERS COLLEGE

The present membership of Beta Psi is 25. Recently we took a survey of former Boy Scouts in college this term. From this survey we have 16 new pledges. We are planning a project for the new pledges and hope to have them as members by the end of the term.

We found that our greatest drawback during the Red Cross drive was the misapprehension that many veterans and others students had against the organization. They stated that some individuals connected with the Red Cross during the war had in one way or another done misdeeds to them or their friends and for this reason they were against the whole organization. Should these students, and others like them, look over the activities of the Red Cross they would find that it does a world of good in both wartime and peacetime and is well worth supporting.

—Robert L. Bartlett, Secretary.

BROOKLYN COLLEGE

In an effort to make the student cafeteria cleaner and more orderly, Gamma Iota Chapter has undertaken a campaign starting about April 24 and we hope the entire student body will cooperate.

—Ed Cirlin, President.

A MOTHER SPEAKS ABOUT ALPHA PHI OMEGA

(Continued from Page One)

In Alpha Phi Omega a further realization of Scouting was reached. Thus a perfect roadway from tenderfoot to Alpha Phi Omega was climaxed.

In Grace Noll Crowell's poem, a mother finds that suddenly these sons have grown up—and are a part of the world:

"But suddenly today, to my surprise,
I find that I must lift my eyes
To meet their eyes;
That I must stand on toe tips
And reach up
To kiss their lips.
These tall young sons—
Each straight as any pine—
Can they be mine?"

"Soon I must share them
Soon I know that they will go,
But oh! I am so glad
That I have had,
Small sons to stoop to,
Tall sons to reach to,
Clean sons to give
That other sons may live."

ANOTHER NEW SONG OF ALPHA PHI OMEGA

By Dr. David S. Mosesson
Gamma Delta Chapter

Tune: "It's Always Fair Weather"
(Harvard Song)

Here's to you, oh Beavers eager,
Who have gathered here to-night,
And to Alpha Phi Omega,
And its emblem shining bright.
For it's always fair weather
When brothers all get together,
For we're birds of a feather
Neath the sign of APO.

For it's always fair weather
When brothers all get together;
Yes, we're birds of a feather
Neath the sign of APO.

Lest Old Time, that sly intriguere,
Rust the bonds of friendship true,
To our Alpha Phi Omega
We'll pledge loyalty anew.
Passing years cannot sever
The friendship of years, no, never,
For we'll stay pals forever
Neath the sign of APO.

Passing years cannot sever
The friendship of years, no, never,
Yes, we'll stay pals forever
Neath the sign of APO.

Why must we help feed Europe?

WE HAVE just won the first battle of Europe. We are fighting the second—and the enemy is famine. Time is running out. Already for millions of Europeans it is very late. If we lose this second battle, we have wasted our victory in the first.

- The American tradition of common decency and human kindness demands that we help feed Europe. It is this tradition that has given us one of our greatest assets, "a reservoir of good will throughout the world."
- There can be no permanent prosperity in America while hunger and despair stalk Europe. Our future international trade demands a healthy and productive Europe which only a well-fed and energetic people can create.
- The future peace and stability of America and the entire world demand that we share our food. In the words of Lord Halifax, "Hunger and discontent are a poor foundation for the peaceful and prosperous world we are trying to build." Hunger provokes despair. Despair provokes hate. Hate makes war. In no better way can America's moral, spiritual and material might be used than to restore peace of mind to a despairing world. It is time to display the strength of democracy in peace.

Our reputation as a great and decent nation, our future prosperity, our future security are at stake.

What can each one of us do? Individually we can do little; collectively we can do a lot.

If every single American follows the suggestions of the Famine Emergency Relief Committee below, we will soon save much of the food needed for Europe. If each of us writes his Congressman asking that he do all in his power to see that the food we have promised is shipped quickly, it will arrive in time to win the second battle. America has promised to deliver by July first, 6,000,000 tons of wheat, 1,000,000,000 pounds of meat and 375,000 tons of fats and oils.

This is our pledge. We must keep the faith.

H. J. Heinz, II

President, H. J. Heinz Company

Here is what you can do to save vitally needed food:

- Never waste bread. Make three loaves do the work of five.
- Serve potatoes more often. Try potato pancakes, potato soup and potato salad.
- Substitute fruits and other desserts for cakes and pastry.
- Serve oatmeal often. One serving equals two slices of bread in food value.
- Serve fewer fried foods.
- Use less wheat cereals and other wheat products.
- Save and re-use fats and oils.
- Serve open-face sandwiches and pies.
- Salvage all fats that can't be re-used and turn them in to your butcher or grocer.
- Use fewer oil dressings—more **boiled** dressings for salads.

BUY—COOK—SERVE SPARINGLY!

500,000,000 People Are Hungry—Don't Waste Food

**Rupert E. Barnett, Jr.***Gamma Zeta Chapter*

He was killed in action in the infantry in France, December 13, 1944. He was prominent in Alpha Phi Omega at Georgia Tech where he studied mechanical engineering from 1941 to 1943. He entered the Army in June, 1943, and went overseas in September, 1944. A younger brother, Hugh, of the infantry was killed in action in Italy.

**Henry G. Paulsen***Gamma Omicron Chapter*

Henry was declared presumably dead a year after he was reported missing in action November 14, 1944. He was last seen in the leading platoon as his company attacked the enemy at a little town near Metz, France. He had previously studied Chinese in the ASTP. He was awarded the Purple Heart and was twenty years of age when killed.

The Story of FIVE MORE GOLD STAR BROTHERS

A TRIBUTE

They flew into the sunlit sky,
Eager and proud yet prepared to die.
More ready to live their happy youth
Filled with joy and hope and purpose and
truth.

But Dick flew into a higher life
Relieved and free of worldly strife.
Each one of us died then—in part
And Dick went on—a Purple Heart.

—Walter MacPeek in Tribute to "Dick"
Fletcher of Gamma Pi Chapter.

**Hal G. Plummer***Alpha Tau Chapter*

He was commissioned a second lieutenant in the Army Air Corps on May 20, 1943, after taking aviation cadet training at fields in California and getting his wings at Luke Field, Arizona. He was a fighter pilot. Seven weeks later on July 6, 1943, he lost his life when his plane, a P-39, crashed into the San Francisco Bay. He was loyal and patriotic. He was very proud of his membership in Sigma Chi and Alpha Phi Omega.

**James W. Swindell***Gamma Zeta Chapter*

Jimmie entered Georgia Tech at age eighteen and attended from 1941 to 1943. He entered the Air Corps in February, 1943, and received his wings and commission as second lieutenant at Eagle Pass, Texas, in March, 1944. He was sent overseas in August, 1944, and was with the 52nd Fighter Group of the 15th Air Force, in Italy. He had completed thirteen missions over enemy territory, received the Air Medal, Presidential Unit Citation, two bronze stars and promotion to first lieutenant before his death occurred on December 5, 1944.

**Paul Adkins***Beta Epsilon Chapter*

The Navy notified Paul's parents that he died at sea May 15, 1944. Because of conflicting accounts, and a definite air of secrecy about all of the information, hope was long held for his return. But no further developments have been reported.
