

Alpha Phi Omega's

TORCH AND TREFOIL

Walter W. Head

*President of the National Council, Boy Scouts of America,
Honorary National President of Alpha Phi Omega*

"A do-gooder" is the way President Head is characterized in a feature article in the March 9 issue of *COLLIER'S*. His integrity in business and his generosity in civic service give inspiration to all who come in contact with him. We are fortunate in having him as a strong booster of Alpha Phi Omega.

VOLUME 21 – NUMBER 3

MARCH, 1946

DEATH TAKES RETIRED PRESIDENT OF LAFAYETTE COLLEGE

William Mather Lewis

We mourn the loss of this brother who was affiliated as an honorary member of Alpha Chapter. He was an enthusiastic supporter of our Alpha Phi Omega brotherhood. He died suddenly last November 11.

QUOTATION FOR THE MONTH

Take time to work—it is the price of success.

Take time to think—it is the source of power.

Take time to play—it is the secret of perpetual youth.

Take time to read—it is the fountain of wisdom.

Take time to be friendly—it is the road to happiness.

Take time to dream—it is hitching your wagon to a star.

Take time to love and be loved—it is the privilege of the gods.

Take time to look around—it is too short a day to be selfish.

Take time to laugh—it is the music of the soul.

LEINSTER LEADER: Irish Digest.

TORCH and TREFOIL

March, 1946

Issued regularly eight times a year in September, October, November, December, February, March, April and May.

Subscription price \$1.00 a year.

Entered as second class matter February 5, 1938, at the post office at Kansas City, Mo., under act of March 3, 1879. Office of Publication, 407 Land Bank Bldg., Kansas City, Missouri.

AN OPPORTUNITY TO AID DISABLED VETERANS, SUGGESTED BY PHI CHAPTER AT SYRACUSE.

In the not so long past, our Senior Faculty Advisor, Dean Piskor, was approached by Major Rienzo of the psychological department of Rhodes General Hospital. They started to outline plans to interest disabled veterans with the possibilities of readjusting themselves through education. We of Phi Chapter, when the opportunity was presented to us, attempted to organize within ourselves and make provisions for this enticing and welcome job. We are making further plans to conduct tours through the school, highlighting the various interests of each individual by arrangement with the hospital, introducing them to the Deans, showing them veterans with similiar ailments who have made a success of college life, etc.

We find that we have made quite a success with almost no effort and in doing so have gained the added respect and admiration of all. I am not relating this as a history of Phi's activities for surely this is only a small part but more as a task that all of our 102 chapters can fit into—In this light do I ask you to consider it.

Hank Tyler, Past President.

DELTA CHAPTER STARTS WEEKLY POLL OF OPINION

The following is quoted from the campus newspaper of Alabama Tech:

This constitutes the first in a series of questions to be asked to the student body. The purpose is to give you, the students and faculty of Auburn, the opportunity to express your opinions on matters of importance to you and to the school. Each week a different question will be asked and the results tabulated in the following issue of The Plainsman.

Question of the week: Should Auburn remain on the quarter system or change to the semester system?

Prof. C. D. Leckey: "I am definitely in favor of the semester system. It allows time for assimilation of subject matter and a broader and more thorough acquaintance with the respective fields of specialization. It also allows the student to mature as he advances, which seems to me to be very important if he is to assume a responsible position upon graduation."

Donna Sims: "I favor the quarter system because there are fewer subjects to study for finals than at the end of a semester."

J. M. "Bubber" Trotman: "I favor the quarter system because you can keep up with the subject matter better."

Winnie Waldrop: "I favor the semester system because it gives you a chance to really learn something instead of just hurrying through the material."

Bob Baker: "I favor the quarter system because it allows greater concentration on the subjects you are taking and because of its flexibility in choosing what part of the year you will attend school."

Prof. Francis Carberry: "Personally, I prefer the semester system. Under the quarter system there is more routine and not sufficient time in which to really learn the subjects."

From the 500 students questioned the following results were obtained:

Favor quarter system: 76 per cent.
Favor semester system: 17 per cent.
Undecided: 7 per cent.

The question for next week: "Should an average of 86 or better excuse a student from final exams?"

What is your opinion?

With many timely questions confronting students on all campuses, a weekly poll of opinion fills a real purpose. Questions of national and international importance, as well as local campus problems, will bring enthusiastic voting among students and faculty.

A Yank at the University of Paris

By Cpl. William H. Walker

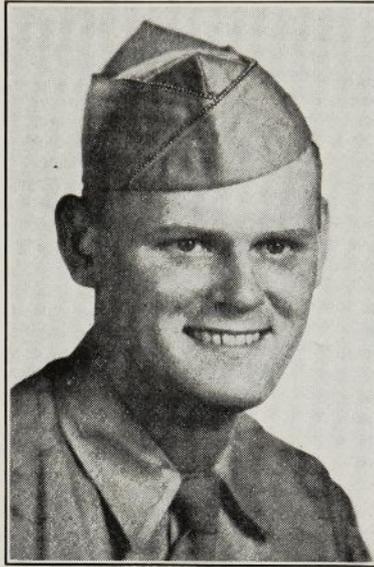

Past President, Beta Eta Chapter
University of Missouri

It is a long way from the campus of a midwestern university with its happy, carefree student body, to the old world sophistication and cosmopolitan atmosphere of the *Cite Universitarie* in Paris.

The life in a university the size of *Cite Universitaire* in Paris is difficult to compare with a modern midwestern university when one considers that students from not only all of France, but from the numerous French colonies and many other countries of the world compose this unique student group. At present due to the influx of returning students, a number of whom have either been in German concentration camps or who were forced laborers in Germany's Greater Scheme, the classrooms are extremely crowded; in other words the aisles are full up to the doors.

Even with this condition as a handicap to better learning, attentiveness is very noticeable; yet, unless the *professeur* has an unusually loud voice, little can be understood by one not too skilled at understanding rapid *Francaise*. Unlike most universities I've visited, there is no roll call to check attendance. The opportunity to higher learning being available, the faculty feels that attendance is thus left to the individual student's discretion. Some of the less interested students feel that the atmosphere of the classroom alone will cause them to absorb the necessary material without the trouble of taking frequent and boresome notes. This is similar to the situation in the Montmartre area, where the mere fact that a few great artists have lived in the area and have likewise found inspiration there, makes newcomers feel that their presence alone in such an atmosphere will inspire them to great heights. Along every street and near every alley, those so inspired, are attempting to paint everything from the ancient buildings to the very cobblestones in the streets.

The extra-curricular life of this colorful mixture of students, is similar to ours in the fact that all desire gay dances, parties, and numerous informal functions. Many of these students from

Bill Walker

the various corners of the world have unusual backgrounds and family connections which make them not only extremely interested in the many political situations, but also eager to participate regularly in staging frequent demonstrations. They never hesitate to sign numerous petitions usually urging better and more abundant housing for the crowded student body.

I was quite surprised at the numerous buildings which composed the dormitories. In a large area near the Port d'Orleans there are many dozens of buildings, each representing the students from either a colony or a foreign country. During the Occupation these buildings were occupied by the German soldiers who were stationed in the Paris area but later American combat men took over; a few were to remain as *cadre* for the American soldiers who would soon come there as students under the Army specialized schooling within civilian agencies. All forms of architecture are prevalent; some are beautiful and ancient, while numerous others are stark, bare and ugly. In the spring the spacious campus area is

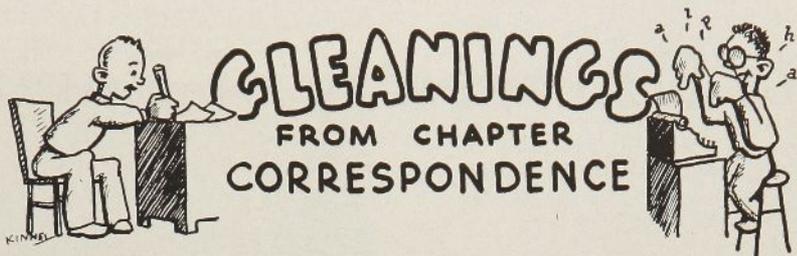

beautiful with its green hedges and numerous floral designs.

The University of Paris alone, has more than one third of the students of higher education, who not only come from all corners of France, but from her many outlying colonies. The unusual enrollment averages between 25,000 and 30,000. The *professeurs* of the University, with justice, may be said to represent in theory all that is to be known in human knowledge. The 27 libraries with an aggregation of some 1,500,000 volumes, by recent enumeration, make much valuable reference work possible. The large increase in the enrollment which has brought to light the overall inadequacies of lecture halls and other facilities has caused much concern. Years ago the influx of students was viewed with pleasure at the university, but the numbers of students are now so large that it is almost impossible to provide satisfactorily for all.

The students of an American University have few of the worries in providing the very necessities of life as does the typical French student. While we are extremely well fed, even overfed at times; and still well clothed, regardless of a somewhat serious shortage of clothing, the French student must add these problems to his other maintenance difficulties. I met an American student who had been eating with the French students in their school cafeteria. He had lost considerable weight during his two months there and was literally praying for packages from home. We have always had so much that a few inconveniences such as a shortage of hosiery throws our women practically into a panic; whereas the French girl students usually wear no hose, due to necessity, since they can be purchased only at tremendous prices through a black market.

One evening I was invited to a meeting at the International English Club. There students from all over France, and many Colonials were banded together in an English speaking society

(Continued on Page Six)

QUEENS COLLEGE

Oh what a wonderful feeling it was to walk in on the first meeting of Gamma Omicron of the new term to see the room filled with the old familiar faces, with young men we haven't seen for two, three or four years! They are back from Germany, Saipan, Tokyo and India. Some won't come back—too many in our chapter. We now have a balanced mixture of older, more mature men along with the younger men. The youngsters did a splendid job against very big odds in keeping APO going. Now, we can count on a more solid group. It was a grand feeling to see many of the old faces assembled again and to see one more drop in at the door. We are overjoyed to see them back and we think they are pleased as punch to take up with APO once more. Peace is wonderful—I can hardly believe it!!!

—Dr. Henry S. Miller,
Senior Faculty Advisor.

PURDUE UNIVERSITY

Eleven new members were initiated February 17 and officers were elected for the new term. We plan to contact candidates through the different fraternity houses and coops.

—Bill Swihart, President.

WASHINGTON STATE COLLEGE

Alpha Xi Chapter is growing steadily. Seven men were recently initiated and five oldtimers were present at the last meeting. New officers have been elected including William T. Good, president; Richard Kernighan, vice-president; Joshyo Kinoshita, secretary; and Stanley Ray, treasurer.

—Leonard W. Young,
Senior Faculty Advisor.

MILWAUKEE STATE

The annual banquet of Upsilon Chapter will be held March 30.

—Robert Erdman, President.

OHIO STATE UNIVERSITY

Two meetings have been held toward reactivating Alpha Iota Chapter and we expect to get into full swing next quarter.

—Dick Claes, President.

UNIVERSITY OF MICHIGAN

Gamma Pi Chapter has set the following service objectives for the spring months: A clean-up-the-campus campaign, a swing concert for the entire campus, a radio program on WPAG to inform the listeners about APO, a mixed swimming party, a stag outing and an annual APO Memorial Eve dance.

—Morris Rochlin, President.

CARNEGIE TECH

At a rush smoker on February 22 we had twenty prospective pledges in attendance, and in addition several men from the University of Pittsburgh were our guests. The Pitt men are securing full information about Alpha Phi Omega in order to revive the chapter on their campus. Brother Kent Shaffer gave an excellent talk at this meeting.

—Peter Bertelson, Secretary.

CORNELL UNIVERSITY

The spring objectives of Gamma Chapter will include orientation for freshmen and new students (especially for returning veterans), aid in the World Student Service Fund drive, aid to local troops in special events, a student housing survey and aid in college registration. We will have several picnics and outings and an annual dance.

—Neil A. Wintringham, President.

UNIVERSITY HEIGHTS, NEW YORK UNIVERSITY

To locate a sufficient number of outstanding men to fill our desired spring pledge class, Gamma Omega has held two smokers this month. Representatives from the Faculty, Alumni, and Bronx Council, BSA, were present.

The faculty members have been consulted on numerous occasions in reference to our service projects. At a recent meeting with the executive committee each faculty advisor assumed the advisorship of one of our operating committees.

The alumni have pledged their support in all chapter activities. I am fortunate in having close connections with this group through the medium of my brother Jerry.

Bronx Council, BSA, has also pledged themselves to support our community activities, such as Red Cross dance, leadership training courses, swimming classes, etc. Already several troops in need of leaders and program directors have approached us for support. Since many of the brothers are still active in Scouting this problem was easily solved.

In addition resolutions have been passed raising the qualifications for eligibility to active membership in our chapter. Specific responsibility in service work in conjunction with whole-hearted participation in social activities constitute the essentials of our more rigid requirements for membership.

—Lewis Rusoff, President.

HOWARD COLLEGE

The new student directory published by our chapter is a very handy booklet and it has been brought up-to-date for the winter quarter by the use of a mimeographed supplement.

—Doc S. Wesson, Jr., Secretary.

NORTHERN ILLINOIS STATE TEACHERS COLLEGE

Eta Chapter held a banquet on January 27 in honor of the returned veterans of our chapter. It was a very enjoyable and successful occasion.

—Robert Burke, President.

SYRACUSE UNIVERSITY

Professor Fay Welch of the College of Forestry spoke at a recent meeting of Phi Chapter and stirred up interest in the annual mountain-climbing trip to Mt. Marcy. This is being planned as one of the activities for the fall semester.

—Robert E. Temple, President.

BROOKLYN COLLEGE

It is a real thrill to be back from the Army and active again in APO. I have been re-elected as president of Beta Iota Chapter. We have a pledge induction ceremony scheduled for March 24.

—Ed Cirlin, President.

SANTA BARBARA COLLEGE, UNIVERSITY OF CALIFORNIA

Psi Chapter was reorganized last fall and we now have 14 active members and an objective of reaching 30 active members this spring. Our projects will include service in the Dean of Men's office, aiding at local Courts of Honor, handling the photographing of men students for the college records, ushering at all college functions and assisting at rallies, assemblies and other meetings. We will also have several social events this spring.

—William A. Rutter, President.

SOUTHEAST MISSOURI STATE TEACHERS COLLEGE

Mr. Arnold Roth, County Chairman of the American Red Cross, met with the local Alpha Phi Omega Chapter February 14 to discuss the Red Cross drive to be conducted in March. A committee was appointed to promote the campaign on the campus.

—"The Capaha Arrow."

ST. NORBERT COLLEGE

We are reorganizing Alpha Nu Chapter this term after being forced to become inactive for two years during the war.

—Lawrence F. Held, Acting President.

C. C. N. Y.

Gamma Delta Chapter inducted nine pledges recently and expects to induct several more soon.

In the field of service, Gamma Delta is really on the move. Thirteen brothers and one pledge took part in the Dean's Reception for Freshmen, two of the brothers as members of the Freshman Orientation Committee and the rest operating the coat check room. The remaining pledges are freshmen and so were not asked to participate in this service. However, several of them volunteered their services during the heavy part of the evening's work. We will resume mailing the school newspaper to former CCNY students now in the service. These are in addition to our standard services which are carried on throughout the term.

—Elliott Adelman, Vice President.

UNIVERSITY OF COLORADO

During the last two semesters, Gamma Theta Chapter has been busy both in intensifying and broadening our activities on the campus, and with a record of achievement which seems impressive and most gratifying even to those who have planned it, we pass it on to other chapters as exemplification of how much can be done with so little.

Noting the lack of social entertainment over the weekends and after athletic contests, we have sponsored eight two- or three-hour dances on Friday nights or after games, and in addition to performing an inestimable service to the student body, we have lined our own coffers with several hundreds of dollars. We have never charged more than a quarter per person, and have promoted the "stag" idea to promote fraternization. In the majority of cases, this was the only recreational activity on the campus during the entire weekend that was open to all. This semester, we are sponsoring dances on alternate weekends.

Last Thanksgiving, we combined with another organization to sponsor the traditional after-game dance, and this coming season are sponsoring it alone. This provided much-needed entertainment and a place to "get together" after the game, and was the first time since 1941 that the event had been held. Splitting the profits, we still gleaned over a hundred dollars from our work, besides performing a much-needed service.

As mentioned previously, we designed, bought, and presented to the University a large banner, approximately 10x4 feet, which we carry at football games and all rallies. It has been accepted warmly, and created much discussion on the campus. It cost \$60, which we paid from our treasury.

We are now planning to conduct a huge campaign to have the salaries of faculty members raised, by exerting pressure upon the state legislature to make the necessary changes in tax mill levies or to divert funds. This involves a varied campaign of writing to interested taxpayers thruout the state, organizing interested groups to apply concentrated pressure with whatever means they have, and of forming a nucleus organization on the campus to coordinate all efforts to this end. In comparison with other professional jobs, the salaries of teachers in this state are quite low, a condition which reflects in all levels and aspects of our educational system. This is by far our toughest and most ambitious project, and one that will require diligent effort, constant application, and much time. If successful, its effect will be felt thruout the state, as well as in our University.

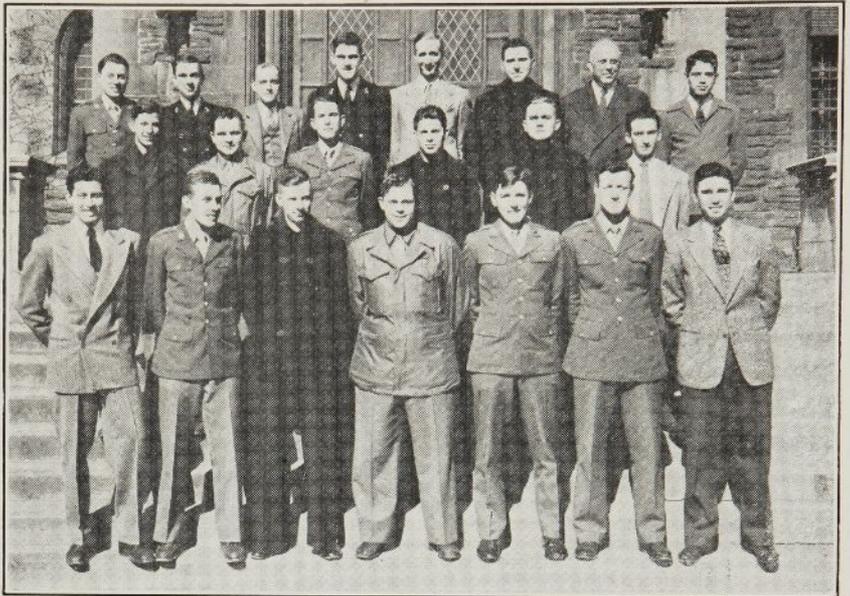

During a recent clothing drive on the campus, sponsored in behalf of needy students abroad (in Europe and Asia) to whom the old clothes will be sent, Gamma Theta Chapter, not satisfied with its contribution, voted to donate \$50.00 to the cause.

For the first time since our organization five years ago, we are buying a page in the yearbook, with pictures of our members, and related information of the chapter.

Of course, we are continuing our ushering at athletic contests and the like, and feel that our program, especially and generally, has been one of appreciated service.

—Ronald Johns, Correspondent.

WE SALUTE NEW CHAPTER AT PENN

In this picture are shown part of the charter members of Delta Zeta Chapter, the newest chapter of Alpha Phi Omega, installed at the University of Pennsylvania.

In the top row left to right are William Cooper, Henry Seipp, Olan Black, John McNelis, Walter Deperven, Irwin Markowitz, Horace Kern, William Owsley. Middle Row: Seymour Schiff, Irwin Krause, Ralph Swanson, Robert Abrams, John Hite, Syd Besthoff. Bottom Row: Erman-Anthony Gentile, Donn Haglund, Jim Manis, H. Robert Klein, Edward Browne, Don McNeely, David Bergman. Members not included in picture are: Lt. Cmdr. James Newpher, Carl Devine, Michael Dorizas, Edgar Cale, Leonard Bendzin, Gordon Vink, Clement Ulmer, Jay Bisgyer, Fitzhugh Legerton, Vernon Gard, Robert Crauder.

●

GAMMA THETA CHAPTER PRESENTS NEW BANNER TO UNIVERSITY

Members of Gamma Theta Chapter proudly display this large and colorful banner which was recently purchased and presented to the University for use at football games and rallies. It was secured at a cost of \$60, paid from the chapter treasury.

CLEMSON COLLEGE

On February 18, the first meeting was held to reactivate Gamma Lambda Chapter. Seven returned veterans who were in the chapter before their military service were present. There are a great many ways in which we can be of service to our school and the community and we intend to get started as soon as possible.

—John W. Rheney, Jr., Acting Secretary.

UNIVERSITY OF GEORGIA

Our Infantile Paralysis drive was very successful. Step by step we are becoming the most active service on the campus.

—Jack Krasner, President.

UNIVERSITY OF TEXAS

At the beginning of this term, Alpha Rho Chapter has set its membership goal at 100 active members.

—Ben Welch, President.

SAN JOSE STATE COLLEGE

Gamma Beta Chapter was reactivated in February with the initiation of seven new members.

—Glen Eglington, Secretary.

LOUISIANA STATE UNIVERSITY

Our chapter is pretty busy these days on the campus. Last week we co-sponsored the "Swing Inn," a campus form of night club. These will be conducted for the next five weeks.

We went on a picnic last Sunday to the local Scout Camp and all had a swell time.

—Robert Stracener, President.

ALABAMA TECH

Our chapter is to aid in the Red Cross drive next week by selling tickets for the Fun Night to be given for the benefit of this campaign.

—John S. Bath, Secretary.

UNIVERSITY OF CHICAGO

One of the projects of our present pledge group was decoration of the Christmas tree at the crippled children's hospital.

—Robert Rushing, President.

WASHINGTON STATE COLLEGE

The spring projects of Alpha Xi Chapter will include our annual fingerprinting campaign, a campus clean-up day and a Handsome Harry contest, and we will also have an outing. We have unlimited opportunities for membership growth.

—Larry Loving, Past President.

MILWAUKEE STATE

Upsilon Chapter is fortunate this semester in reporting that the prospects for the coming school year are fraught with an excellent possibility of greatly increased activity and membership. At a recent meeting for prospective members, neophytes, pledges and members, about forty men were present, with apologies from a number more for enforced absence. Some men played card games but the majority chatted informally over heaping bowls of potato chips. The consensus of most of the members was that the prospective men were the type we would take pride in admitting to the group.

—Robert Erdman, President.

A YANK AT THE UNIVERSITY OF PARIS

(Continued From Page Three)

not only for the purpose of increasing the knowledge of the language, but for promoting better relations with the English speaking countries. In their game room were a few prized pieces of furniture including a ping pong table, a rejuvenated radio and a few English texts for their library. I visited a number of their dances and committed myself to one discussion. It dealt mainly with the United States and the need of greater understanding between peoples. They felt that they were not being treated as an ally, but more or less as a subjected people who were to be left weak with little of our assistance. They were very delighted later in the evening when informed that for refreshments they would each receive a cup of real coffee, instead of that foul black mixture which is usually served.

For a person earnestly desiring to learn French, one should establish oneself in a French home, where continuous conversation in French is necessary; however, there are few French families with both the space and inclinations to take a boarder. One could hardly hope for comfortable and pleasant surroundings for less than \$70 per month, and then ideas of comfort, especially in the matter of heat should be flexible, and wardrobes quite complete. After dinner many delightful evenings might be spent in talk, in study, in observing Paris street life from the *terrace d'un cafe*, in going to the opera, to the *Comedie Francaise* or by visiting the various night clubs and shows so well publicized.

The trips and excursions which were a part of our course in French civilizations, were conducted by a *professeur* who spoke beautiful French and passable English. These were so interesting, that the student instead of being buried by cathedrals and museums, as is the ordinary sight-seer, looked forward as enthusiastically to visiting them as the *Follies Bergere*, or the *Casino de Paris*. Among the other included places we visited was the Cathedral at Chartres,

which alone, is worth a trip. We also saw Fontainebleau, Reims, Rouen, Versailles, Pierrefond Castle, as well as the tomb of Rosseau, the restful country home of Napoleon at Malmaison, and innumerable other interesting sights.

The French Welcoming Committee was also instrumental in making our sojourn at the university more pleasant. They introduced American students to prominent French families, sponsored weekly dances and frequently obtained free tickets to the Opera, *Comedie Francaise* and many other interesting entertainments. The students also, as a group, planned frequent dances. I attended one such occasion with a charming *jeune fille*, at the International Building which is in the center of the campus at *Cite Universitaire*. The music was either an extreme tango or a weak imitation of our jive. Champagne was available at 400 francs per bottle and *vin rouge* at a much more reasonable rate. During the course of the evening shouts and cheers suddenly rocked the hall, as one of the leading French generals graciously presented himself at this gala *Bal de Nuit*. Later, this observing general instituted the arrest of a young *mademoiselle* who collaborated with the Germans during the occupation and was believed to have been a spy. After these brief interruptions the tempo of the music increased and I observed the French attempting our jitterbug dance steps. By 5 o'clock the next morning all who had endured this enjoyable but lengthy evening of events, dashed off so that they might catch the first Metro.

All in all, my brief attendance at the *Universitarie* of Paris was a very interesting experience in my life; one I shall always remember, and one which has led me to believe there should be an exchange of students on a large scale, from other countries in order to promote better understanding, and friendship among all the people of the world.

UNIVERSITY OF ARKANSAS

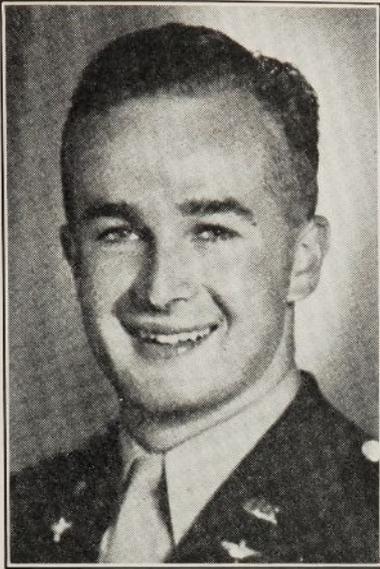

Several former Scouts here have expressed their desire to become affiliated with Alpha Phi Omega. I feel sure Beta Rho Chapter can be easily reactivated.

—Ralph L. Stewart.

UNIVERSITY OF PENNSYLVANIA

We are beginning a pledge period in our chapter to enlarge our membership before the closing of the Navy training program in July.

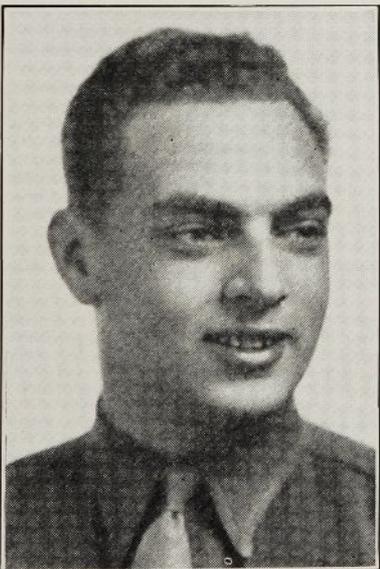

—James E. Manis, Secretary.

Paul J. Farnham

Gamma Beta Chapter

Leaving San Jose State, Paul entered the Army Air Force and his combat service began in November 1944 on Guam. At the time of his death, in action June 26, 1945, he was pilot of a B-24 having completed 33 missions to such targets as Iwo Jima and Truk. He was a first lieutenant. He was deeply interested in Scouting, and his mother has kindly sent a contribution to help further the work of Alpha Phi Omega.

David Joel Serkes

Alpha Phi Chapter

When the ASTRP program was discontinued, he joined the army as a private in the infantry in February 1944. In September of that year, he was sent overseas as a replacement soldier. During the Battle of The Bulge on December 19, while defending the Elsinore Ridge in Belgium, he was killed by enemy artillery fire.

The Story of FIVE MORE GOLD STAR BROTHERS

James Henry Dayton

Gamma Chapter

James was graduated from Cornell University in 1942 and entered training in Naval Aviation, being assigned successively to the air stations at Glenview, Illinois; New Orleans, Louisiana; and Ottumwa, Iowa. He was advanced to lieutenant junior grade April 1, 1944, and met his death in line of duty April 22, 1945 in the crash of a training plane near Martinsburg, Iowa.

Richard Floyd Fletcher

Gamma Pi Chapter

From the age of twelve, Dick's principal extra-curricular activity was Scouting. He worked hard, played hard, advanced steadily. He loved the out of doors at every season of the year. He liked people and people liked him. In 1940 he became a charter member of Alpha Phi Omega at the University of Michigan, giving tirelessly of his energies in building the organization. He was elected chapter president in 1941 and also president of Kappa Sigma fraternity.

Already a flyer, he entered Naval aviation and advanced through the ranks to Lieutenant, transferred from the USNR to the Regular Navy and was then sent to combat areas. On May 18, 1945, he was killed in action above Japanese held territory of southern Okinawa.

Ernest L. Seabaugh

Beta Psi Chapter

Ernest entered Alpha Phi Omega at Southeast Missouri State December 13, 1941 as a freshman. He had previously served four years in Scouting, reaching Life rank. He entered the Army Air Forces and advanced to the rank of lieutenant, and was killed in an airplane accident at Ephrata, Washington, May 8, 1944.
