Education is a conquest, not a bequest. It cannot be given, it must be achieved. The value of an education lies not in its possession, but in the struggle to secure it.—*Elbert Hubbard.*

TORCH and TREFOIL

September, 1952

Issued regularly eight times a year in
September, October, November, December,
February, March, April and May.
Subscription price \$1.00 a year

Entered as second class matter February 5,
1938, at the post office at Kansas City, Mo.,
under act of March 3, 1879. Office of pub-
lication, 419 Columbia Bank Bldg., Kansas
City, Missouri.

MEMBERSHIP

A Message from Our National President

Dear Brothers:

As I enjoyed a vacation on the shores of Lake Michigan, my thoughts turned toward our fraternity and the beginning of another school year. In reflecting about the activities of our fraternity and evaluating our record of service, it appears clear to me that our main objective should be to strengthen each chapter's position on the campus. The task is not how to add more chapters to the list but to increase the activity of existing chapters. To increase or even to maintain chapter activities involves membership.

The most important problem that faces every chapter of Alpha Phi Omega is membership. To maintain a group of active members and to recruit a pledge class is really the major objective confronting the officers of every chapter. The problem of membership is an ever present one which requires constant consideration and active promotion. There are many ways to stimulate members to action and many methods of recruiting new pledges, but regardless of the methods used, there must be a planned program with adequate leadership.

The chapter officers were elected to serve as leaders and here in the membership expansion is the opportunity for them to display real leadership. Every aspect of membership calls for action on the part of some interested active member, who in turn will interest others, thereby making active many of those who wear our fraternity insignia.

The prestige of Alpha Phi Omega on every campus comes from its program of service as it is being carried out today. To carry out a service program requires manpower. Active members who will participate and lead in chapter activities are needed. *Membership*, that is a big objective which chapter officers, with their executive committee, should plan and execute, because without adequate membership a chapter cannot carry out a program of service.

What is the situation in our fraternity today? Do we have inactive chapters? Yes, we do have some inactive chapters because they have failed to maintain an adequate number of actives to function as a service fraternity. Inactive chapters go down like ships in a storm, while strong chapters throw overboard their excess ballast, take their bearings afresh and go forward. Nothing is more important in our fraternity than for our active chapters to keep themselves strong. Why not throw out the excess ballast, set your objectives and go forward with an enlarged active membership engaged in service projects.

Your chapter cannot meet today's competition for a place on the campus with yesterday's record of accomplishment. Now is the time to forge ahead.

Looking out over beautiful Lake Michigan, I was impressed by that far-distant horizon which always appears to be unlimited. So, too, as an active member of Alpha Phi Omega you have an unlimited opportunity in our fraternity. Keep in mind your fraternity pledge, pay your debt to someone by being an *active* member.

Fraternally yours,

Daniel Den Uyl

National President

GETTING READY FOR THE 1952 NATIONAL CONVENTION

Plans are moving along rapidly for the 1952 National Convention of Alpha Phi Omega, to be held in Columbus, Ohio, December 28 to 30, 1952. This promises to be an outstanding meeting, with larger attendance than ever before.

The convention is for the purpose of deliberation and fellowship among delegates and members from all parts of the United States. This meeting will provide an excellent exchange of ideas concerning service projects, methods, and the "know how" of chapter operation, as well as handling legislation on fraternity matters . . . and a real good time for all.

On this page are pictured four officials who will be in charge of the convention. All are well experienced in AΦΩ national conventions, and this "team," along with the host chapters, will provide a top-notch program. All Ohio chapters will collaborate as hosts. Committees of Alpha Iota, Delta Alpha, Delta Gamma, Epsilon Phi, Epsilon Psi, Zeta Delta, Zeta Kappa, Zeta Lambda, Zeta Rho, Theta Beta, Theta Upsilon, Iota Delta and Iota Epsilon Chapters will be on the job to handle the many arrangements and details necessary for an enjoyable and valuable meeting.

Further details concerning the program, cost, reservations and other preparations will soon be sent to all chapter officers and advisors in the National Bulletin.

Plan now to be sure that your chapter is represented at this important meeting!

Presiding Officer

PROF. DANIEL DEN UYL

Our able and energetic National President, who has led Alpha Phi Omega during the past two years, will direct the convention as presiding officer.

Program Chairman

DR. HENRY MILLER

He has the important responsibility of developing the convention program, filled with interest and value.

Arrangements Chairman

PROF. HARRY C. BARNETT

As arrangements chairman, he is now at work to insure adequate facilities for an outstanding convention.

Convention Secretary

ROBERT J. PAYNE

As in past conventions, he has been asked to take charge of recording and reporting at Columbus.

CARE HELPS THEM HELP THEMSELVES

In Greece, a farmer tills his field with a sturdy CARE steel plow. In Western Germany, a refugee clears the land of his new homestead with CARE tools. In the Philippines, a civil engineering student pores over a CARE book to learn the techniques of building modern roads.

All of this is part of the new trend in the work of CARE, the non-profit overseas service agency through which Americans have sent more than \$125,000,000 worth of voluntary aid to the people of Europe and Asia in the past six years.

The familiar CARE food and textile packages still go forth to meet the urgent daily needs in many areas. They help save the lives of war orphans in South Korea. They provide sustenance and clothing wherever shortages and inflation, economic stress and underdevelopment have left a trail of want. But more and more CARE is appealing to Americans to send other peoples the means of growing their own food, of safeguarding their own health, of earning their own livelihood.

Glimmers of this goal came three years ago when the CARE-UNESCO Book Fund Program was organized to share with other peoples the technical know-how that has helped Americans prosper. Today, contributions to this fund provide colleges, libraries and other educational institutions in over 30 war-depleted and so-called "backward" countries with the best, new, American scientific and technical works—books in such basic categories as medicine, agriculture, engineering, vocational training. A supplement to this plan, the Children's Book Fund, provides overseas schools with \$10 packages of new American youth literature to help sow the seeds of knowledge and understanding among the world's young people.

Just as books are the tools of education, so CARE realized that other tools were needed for other vital

Editor's Note: In this article, opportunities for service through CARE are again brought to the attention of members of APO. In recent years, many chapters of Alpha Phi Omega have contributed to the needs of people in other nations through CARE, and we urge all chapters to give consideration to this field of service during the new school year just started. The cost of the several kinds of packages is low, and if your chapter can develop means of earning even a small amount of money for this purpose, it can do much good toward world friendship. Why not discuss it at your next meeting to determine how your chapter can contribute to the CARE program.

chores if impoverished peoples were to become self-sustaining. In India CARE officials, distributing food packages to ease the pangs of recurrent famines, were appalled by the widespread use of "crooked stick" plows and other primitive tools that keep crop production low. CARE'S answer was a \$17.50 plow and a \$10 hand tool package (containing a steel mattock, weeding hoe, pitchfork and shovel) which Americans are asked to subscribe for small farmers.

These agricultural parcels are also available for Pakistan and for Greece, where a lack of tools hampers reclamation of farmlands which had to be evacuated during the world and Greek civil wars. A poor farmer in the Greek mountain village of Moules summed up reaction to these gifts when he received one of the first CARE hand tool packages:

"This will mean more food for my family, more money from increased crops," he rejoiced. "Thank God for this day!"

Continuing its determination to offer specific remedies for specific problems, CARE turned its attention to the 10 million displaced persons—ethnic Germans expelled from satellite countries soon after the war, as well as recent Iron Curtain refugees—who are stranded in Western Germany. Under a plan sponsored by the Bonn Government, new homesteads are being provided for some 75,000

of these families. To enable them to perform essential building tasks, CARE devised its \$15 Resettler's Tool Kit. And for refugee youths, barred from learning a self-supporting trade because the German apprentice system requires them to furnish their own tools, CARE has made available a \$15 Carpenter's Apprentice Tool Kit.

But tools are of little aid to people who lack the strength to work. So CARE, with the cooperation of the UN's World Health Organization, has launched a World Health Program to fight needless death and disease. Two initial health projects are now under way. To safeguard the lives of mothers and infants in India and Southeast Asia, Americans can provide native midwives with a \$25 CARE midwifery kit containing essential instruments and supplies, or a \$10 midwifery replacement package. Or, contributions to the CARE Iron Lung Bank will help combat infantile paralysis by providing respirators for key hospital centers in Japan, Thailand and the Middle East.

Additional "self-help" packages and projects are in the planning at CARE headquarters, 20 Broad Street, New York City, for the agency is convinced that the American people, given the facts, will support this "private Point Four program" for reconstruction as wholeheartedly as they send CARE packages for relief aid.

"Self-help is the most important task CARE has ever undertaken," says Paul Comly French, executive director. "Such gifts make sense to both the beneficiaries and the Americans who contribute to CARE, for they bring closer the day when our help will no longer be needed. Equally important, they build good-will for America and help promote the universal well-being so essential to world peace and freedom."

Will your chapter help by giving the amount needed to send one or more packages?

Children and Adults in Many Nations Benefit from CARE Contributions

Still a prime need, the familiar CARE food and textile packages bring happy smiles to the faces of these South Korean war orphans on the island of Koje. The gifts from the United States mean nourishing meals, warm clothing and a brighter future for these children.

Food for India will be more plentiful when these men till their fields with this modern plow received through CARE. In the picture, Edward T. Greaves, CARE mission chief, explains to turbaned farmers in an Indian village as he demonstrates the best use of the implement.

A new home, new life is in the offing for this family in Western Germany, shown with the CARE resettler's tool kit they have just received to help them perform essential building chores on the new homestead the Bonn Government is providing.

Tools for education—the best new American medical books arrive at the University of Medical Sciences in Bangkok, Thailand, which is one of more than thirty countries to which the CARE-UNESCO Book Fund bring the benefits of the latest technical knowledge.

Books are being furnished to colleges, libraries and other educational institutions. They include the finest available works on medicine, agriculture, engineering and vocational training. The values of these contributions mean much toward world friendship. They help spread knowledge and understanding among people around the globe.

CARE headquarters is located at 20 Broad Street, New York, N. Y.

Educational Films

ALPHA OMEGA CHAPTER at *Kirksville College of Osteopathy and Surgery* presented an extensive series of films last Spring for the benefit of the students.

Some of the subjects of the pictures were:

- Correction of Nasal Infirmities
- Immunization Against Infectious Diseases
- Clinical Application of Bone Marrow Studies
- Communicable Diseases
- Cataract Extraction
- High Speed Motion Pictures of Human Vocal Cords
- The Inner Ear
- Functions of the Ear in Health and Disease

Those subjects indicate that these films were definitely related to the academic work of the college. The work of arranging for the pictures was handled by the Visual Aids Committee of the chapter, headed by Milton K. Miller. Dean M. D. Warner expressed high praise for this project. This news is reported by Richard F. Lamb, President.

Service at Scout-o-Rama

Three collegiate chapters (CHI of *University of California at Los Angeles*, ALPHA KAPPA at *University of Southern California* and EPSILON CHI of *Los Angeles City-State College*) and the SOUTHERN CALIFORNIA AREA ALUMNI CHAPTER gave 1,400 man-hours of service at the third annual Los Angeles Scout-o-Rama.

It is estimated that more than 75,000 people attended the event held in the Memorial Coliseum, and about 28,000 Cubs, Scouts and Scouters participated. It had over 600 display booths and 3,000 campers covering the entire area of exposition park.

The four chapters assisted the Metropolitan Chairman of ΑΦΩ, George H. Auger, and took care of the Information Booth, helped in crowd control at the turnstiles, assisted in gen-

eral arrangements, handled the arriving and departing traffic before the opening and after the closing of the show. All in all, the group did a tremendous job. This is reported by Robert H. Middough, President of the Southern California Area Alumni Chapter.

Explorer Visit

At the *University of Mississippi*, EPSILON OMEGA CHAPTER conducted an Explorer Scout Visitation Week-end last Spring. This was for the purpose of acquainting the boys with the university facilities and program. The visit included a tour of the campus, baseball game and other entertaining and useful features. This is reported by Fenton Wicker, Jr., Past President.

Signs for the College

ETA CHAPTER is erecting signs for the benefit of *Northern Illinois State Teachers College*. The signs will also benefit visitors and townspeople. This is reported by Vernon Peterson.

Donation to Student Union Fund

Proceeds totalling \$350.00 from ZETA UPSILON CHAPTER's Ugly Man Contest last Spring were given to the Student Union Fund of *Boston University*. Another major project of the chapter last semester was its annual Easter Party at the Massachusetts Society for the Prevention of Cruelty to Children. New and used toys were presented as part of the program. This is reported by Joel B. Cohen, President.

THANKSGIVING SERVICE AT EVANSVILLE COLLEGE

Furnishing food is a real service to needy families. This picture shows five brothers of Gamma Mu Chapter of Evansville College delivering baskets last Thanksgiving. They are, left to right, Al Franke, Franklin Beumer, Bill Baumgartner, John Leslie and Ken Curtin. Now is the time to plan service projects for the coming Thanksgiving. We urge each chapter to give assistance to one or more families which are in need.

Best Social Fraternity Award

At the *University of Arizona*, THETA IOTA CHAPTER has originated a plan for offering a trophy for the outstanding social fraternity on campus each year. It is to be a rotating cup, awarded on a point basis. Emphasis will be placed on scholarship and activities. Service by the several fraternities will also be judged as part of the system for deciding the winner. This is reported by Russell E. Denker, Past President.

Camp Scholarship

The PHILADELPHIA AREA ALUMNI CHAPTER is continuing its scholarship fund for sending deserving boys to Scout Camp. This is reported in the chapter newsletter.

A New Flag for College

At *Northeast Missouri State College*, EPSILON CHAPTER has recently purchased a new flag for the college. It was purchased with funds secured by checking coats at school dances and selling refreshments at the high school senior day. Other projects of the chapter last Spring included helping with registration for high school senior day, collecting funds for the March of Dimes and Red Cross, soliciting donors for the bloodmobile and holding an Ugly Man Contest dance. This is reported by Robert G. McCoy, Corresponding Secretary.

Sponsor Homecoming Dance

A new project for DELTA OMEGA CHAPTER this Fall will be the sponsorship of the homecoming dance, reports Otto Glaser, President. Proceeds will be donated to the building fund for a Student Union Building at the *University of Houston*. Other immediate Fall projects of the chapter are the sale of programs at all football games, building of the homecoming bonfire, publishing of the Student Directory and manning the information booth during registration.

Letters of Appreciation

At *Valparaiso University*, ZETA GAMMA CHAPTER has recently received several fine letters of appreciation for service rendered. One was from Miss Mary Heinecke, Secretary

of the Student Council, concerning the chapter's work in preparing the copy for the university directory. Other letters are from Marvin F. Rammelsberg, President of the Student Council, and M. G. Morgan, Assistant Business Manager of the College, in connection with other projects. This is reported by Jack Weintraub, Past President.

Ugly Man Award at Intramural Open House

The winner of BETA CHAPTER'S Ugly Man award received a key and trophy on March 21 at the Intramural Open House held in the field house of the *University of Pittsburgh*. Proceeds were given to the Pitt Chest Fund.

Ring Sales

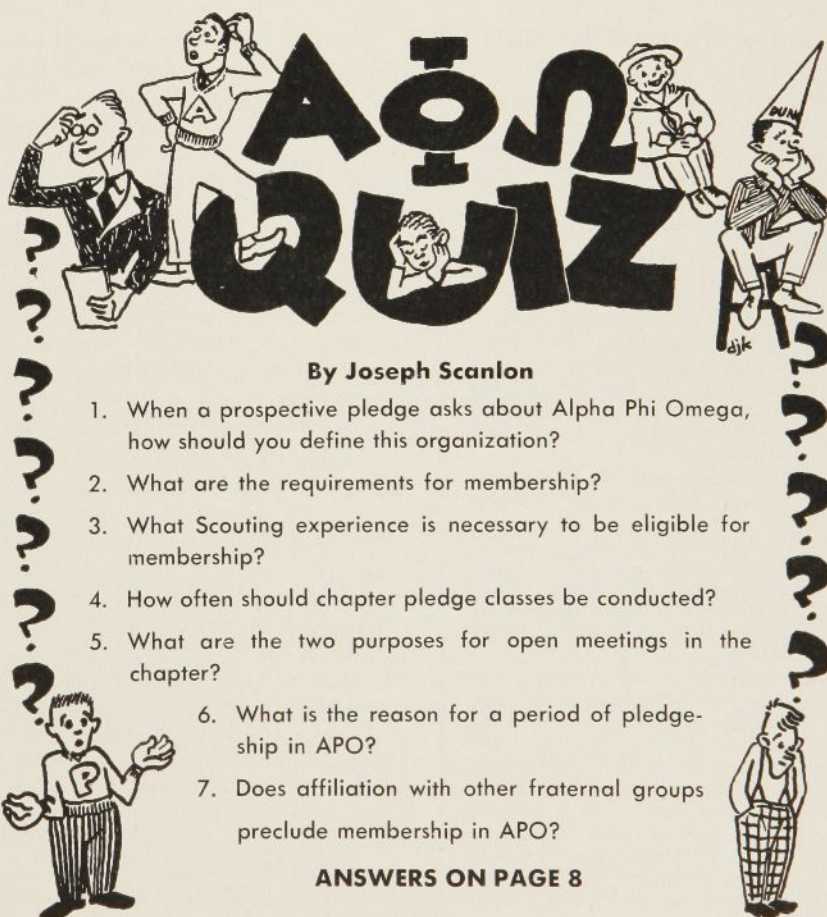

Three years ago the Student Senate at the *University of Connecticut* requested DELTA SIGMA CHAPTER to handle the taking of ring orders. We work with the representative of the company, taking orders, ring sizes,

handling the distribution of the rings when they come in, banking the money and keeping the books.

The Senate decides which company will handle the rings for each year. We do the dog work. Delta Sigma Chapter receives a 75-cent commission on each ring. Orders are taken throughout the year.

Before AΦΩ took over this project it was run in a very inefficient manner by a committee appointed by the Senate. The individuals on this committee got the commissions. With the taking over of the project by Delta Sigma Chapter a more efficient job was done and the money earned goes toward the campus service program.

Complete details on how we run the project here at the University can be furnished to any chapter desiring that information. This is reported by Anton Jungherr, who served as Ring Chairman for 1951-52 and is now Chapter President.

By Joseph Scanlon

1. When a prospective pledge asks about Alpha Phi Omega, how should you define this organization?
2. What are the requirements for membership?
3. What Scouting experience is necessary to be eligible for membership?
4. How often should chapter pledge classes be conducted?
5. What are the two purposes for open meetings in the chapter?
6. What is the reason for a period of pledge-ship in APO?
7. Does affiliation with other fraternal groups preclude membership in APO?

ANSWERS ON PAGE 8

Fine Start

One of the first reports of this Fall's activities comes from one of our newest chapters — KAPPA KAPPA CHAPTER of *New Mexico Western College*. The group helped with registration of freshmen and transfer students by maintaining an information booth to explain the registration procedure. They helped serve the Student-Faculty picnic, and are now working on a student directory. The chapter plans to conduct two pledge classes this year, and has numerous prospects secured through the census. Thanks to Gilbert Yocky, Jr., Secretary, for this news.

Interfraternity Sing

Nineteen fraternities of *Michigan State College* competed in BETA BETA CHAPTER'S annual Interfraternity Sing held last May 8. This was one of many Spring activities of the chapter, some of the others including addressing of one thousand envelopes for the Lans-

ing Easter Seal Drive, Ugly Man contest with proceeds contributed to the Campus Chest, a work day at the Scout Camp preparing it for the summer season, aid at the Scout-o-Rama, and serving as host to the Sectional Conference of Indiana and Michigan.

Leadership Tribute

ZETA CHAPTER at *Stanford University* is growing stronger all the time, both in membership and spirit, reports Tony Money, Past President. He says that the chapter is now one of the most highly respected organizations on the campus, whereas a few years ago it was practically unknown. He gives major credit to Brothers Bill Gullikson, Walt Menninger and Bill Sanson, whose brilliant leadership and tireless efforts have contributed immensely to the growth of Zeta Chapter.

Blood Drive Contest

At *Millikin University*, ETA EPSILON CHAPTER used a contest basis for its annual blood drive. The organiza-

tion with the highest percentage of its membership donating blood during the drive was given a cup on Awards Day. Such factors as the ineligibility of certain persons to give blood were taken into consideration. A committee to judge the winner was made up of representatives from the Interfraternity Council, Panhellenic Council, Independent Association and Alpha Phi Omega. This is reported by Rjurik Golubjatnikov, Secretary.

Aerial Map of University

The Spring 1952 "Irwin Brossler Pledge Class" of THETA PSI CHAPTER had as one of its major projects the photographing, printing and mounting of an aerial map of the *University of Bridgeport*. The chairman of the drive for the proposed new Student Union Building is Harvey Seltzer, and Ray Olive, faculty advisor of the chapter, is the executive chairman of the building project. This is reported by Robert Paul, Secretary.

Answers to APO Quiz For September

1. Alpha Phi Omega is a national service fraternity, composed of college and university men who are or have been previously affiliated with the Boy Scouts and who have pledged themselves to serving their fellowmen.
2. There are three requirements for membership in Alpha Phi Omega:
(a) Previous training in Scouting.
(b) Desire to render service to others.
(c) Satisfactory scholastic standing.
3. For membership in APO one must have been affiliated with the Boy Scout movement. He must have taken active part as a Cub, Scout or Scouter.
4. It is recommended that each chapter should conduct two pledge classes per year.
5. The two main purposes of chapter open meetings are: First, to greet and welcome new former Scouts; and second, to explain to them the purposes and activities of Alpha Phi Omega.
6. Pledgeship in APO is for the purpose of introducing each new pledge to the history, traditions and principles of our brotherhood, and to prove his desire to serve in our four fields of endeavor.
7. Affiliation with other fraternal groups does not preclude membership in APO. Members of any and all other groups are welcome to participate in our program of service.

ON OUR COVER

A war hero. That is how University of Washington medical researchers characterized Brother James Stanley Leedom who died as a result of experiments seeking better ways to preserve whole blood.

An 18-year-old Seattle University student, James was a member of Kappa Rho Chapter of Alpha Phi Omega. He had an unusual blood type and had volunteered for the experiment which involved injection of blood that had been refrigerated.

Subsequent studies indicated that the blood, which was free of bacteria before it was frozen, became contaminated by rare bacteria that do not occur at body temperature but which thrive in freezing temperature. The unusual phenomenon has resulted in widespread study of present blood preservation methods both at the University and elsewhere and has focused attention upon a point of danger that may save many lives in the future.

At the request of University authorities, Dr. John G. Gibson, II, a Harvard University blood expert, was called in to conduct a follow-up study.

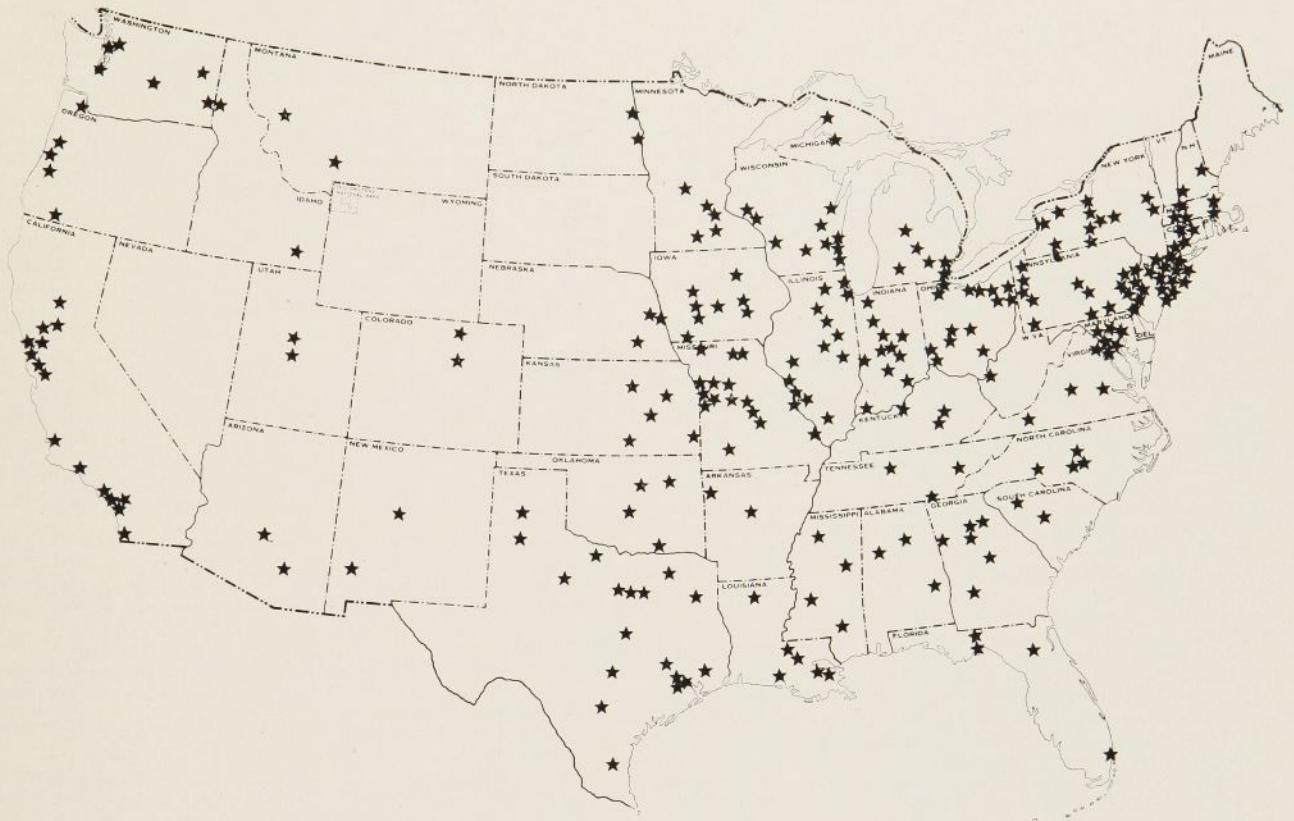

James' father, Stanley P. Leedom, said, "God does things in strange ways. Maybe by dying James saved thousands of other lives. I don't want this loss to deter in any way the blood donor program or these experiments."

Commenting editorially, the *Seattle Post-Intelligencer* said in part: "James Stanley Leedom gave his life for his country just as surely as if he had fallen in battle. The project in which he volunteered to participate was undertaken for the purpose of saving the lives of wounded members of the armed forces by increasing the efficiency of the program under which blood is collected and stored for administration to them. Thus, many an American soldier in the future may be restored to health as a result of young Leedom's self-sacrifice."

James was born in Auburn, Washington. He had been an honor student from the fourth grade at elementary school, through O'Dea High School and in his first year at Seattle University. He was a premedical student. An Eagle Scout, he was on the camp staff of the Seattle Area Boy Scout Council. He also was a member of the ROTC at Seattle University.

Alpha Phi Omega pays tribute to the supreme service rendered by Brother James Stanley Leedom. It is an honor to have had James as a member of our brotherhood.

Annual Roll Call of CHAPTERS OF ALPHA PHI OMEGA

This map indicates the location of Alpha Phi Omega Chapters throughout the United States, and the roster on the following pages provides an up-to-date list of chapters. Our program is "rolling" this Fall, and we have every reason to anticipate increased service in these chapters and the addition of several new chapters during the year.

BULLETIN BOARD

CHAPTER RECORDS

Accurate records are highly important to the success of your chapter. These include the Secretary's records of chapter meetings and service participation, the Historian's records of projects and other activities, the Treasurer's records of chapter finances, the Alumni Secretary's records of past members, and the committee chairmen's records of the planning and conducting of each project.

Although "paper work" is not the main objective of Alpha Phi Omega, the records maintained by chapter officers are very helpful in keeping the chapter rolling smoothly.

PICTURES

It is recommended that each chapter give particular attention to securing pictures in connection with your various projects of this year . . . pictures showing members and pledges at work in your service activities.

Pictures offer the best means of letting other chapters know about your projects. They tell your story much more vividly than just words. Ask your publicity committee to take pictures on all possible occasions.

Watch for pictures of chapter projects in the forthcoming issues of TORCH AND TREFOIL, and send pictures from your chapter to be included in the future.

MAILING LIST

Careful effort is being made to insure delivering each issue of the TORCH AND TREFOIL to the correct address of all members, pledges and advisors. Our National Office has asked each chapter to send a current roster of names and addresses of men who have enrolled for the Fall term, to enable the correction of the mailing stencils. Your helpfulness in this regard will be much appreciated.

Names of new pledges will be added to the mailing list when their applications (pink sheets) arrive. Also, new lists of officers, when elected, should be promptly reported to the office.

PLEDGING

Early in the Fall term is the very best time of year to pledge and train the new men you desire in your chapter.

In addition to the census and other methods of contacting large groups of prospects, it is recommended that each member make personal contacts among friends and classmates concerning APO. Personal invitations offer one of the finest ways to secure new pledges, and by this method every member can assist in increasing your chapter membership.

Will you make it a point to invite a friend to go with you to the next open meeting?
